

ZINE EDDINE ROUABAH

SOFTWARE ENGINEER — FULL-STACK

Blida, Algeria | +213 540 166 358 | rouabah.zineedinee@gmail.com | zineddine.vercel.app | github.com/xCyberpunkx | linkedin.com/in/zine-eddine-rouabah

PROFESSIONAL SUMMARY

Full-stack software engineer with 4+ years shipping production-grade platforms across enterprise ERP, SaaS, e-commerce, and industrial sectors. Currently building an enterprise travel-booking module inside a multi-tenant ERP at Script Shock, while independently architecting **Velora**, a multi-tenant SaaS for gyms, spas, and beauty institutes in Algeria. Comfortable owning a feature end-to-end — data model, API, frontend, deployment — across both the Laravel/PHP and Next.js/NestJS/Prisma/TypeScript stacks, backed by CCNA-level networking and Docker/Linux fundamentals.

20+ shipped client platforms · 244 public repositories, 443 stars · CCNA + Docker Certified

PROFESSIONAL EXPERIENCE

Software Engineer — Script Shock

April 2026 – Present

Blida, Algeria · On-site

- Build and maintain front-end features and handle database administration as part of the core engineering team on a multi-tenant enterprise ERP platform.
- Booking**, an enterprise travel-booking module embedded in the ERP (Laravel/PHP): shipped per-field validation, session persistence through login-modal reloads, and Amadeus API integration fixes.

Freelance Software Developer — Self-Employed

April 2024 – Present

Remote / Algeria

- Own the full delivery cycle — data modeling, backend APIs, frontend build, and production deployment — for independent business clients, primarily on Next.js, Prisma, and PostgreSQL.
- Delivered 15+ production websites and applications across real estate, industrial manufacturing, healthcare/e-commerce, and hospitality, including **Groupe GADI**, **DAMAC PLUS**, and **KTM** — several shipped with a custom-built inline CMS so non-technical clients can edit content without developer involvement.
- Independently architecting **Velora**, a multi-tenant SaaS ERP for gyms, spas, and beauty institutes — members, subscriptions, appointments, POS, stock, and accounting in one platform, with CIB, Edahabia, BaridiMob, and CCP wired in as native payment rails and org-scoped RBAC across five role tiers.

Frontend Developer — SnovaTech

February 2025 – February 2026

Remote

- Delivered front-end features for a Next.js solar-energy simulation platform, building the financial-projection and ROI-analysis tools Algerian consumers use to size and price installations.
- Improved UI consistency and rendering performance across the application.

Web Developer — Kara Automobile

February 2024 – January 2025

Blida, Algeria · On-site

- Supported the company's digital presence and internal documentation workflows through an on-site web development role.

Full-Stack Developer — Ultra Light

July 2023 – September 2024

Blida, Algeria · On-site

- Led development of the company's corporate website in Laravel, architecting a custom application focused on performance, scalability, and security.
- Designed application architecture aligned to the business's operational and workflow requirements.

FEATURED PROJECTS

Velora (formerly Nexora) — Flagship · Multi-Tenant SaaS ERP

Multi-tenant ERP for gyms, spas, and beauty institutes: members, subscriptions, appointments, POS, stock, and accounting priced in dinars, with CIB, Edahabia, BaridiMob, and CCP as native payment rails and strict per-organization data isolation across 5 role tiers. Normalized two messy legacy client spreadsheets into clean relational seed data (51 clients, 74 subscriptions, 372 bookings) as part of the client-management module.

Stack: Laravel 13, React (Inertia), Next.js, NestJS, PostgreSQL, Prisma, TypeScript

Live: nexora-jet-rho.vercel.app

Ledger — Client & Project Operations Platform

Multi-tenant SaaS consolidating scattered freelance/agency work into one system: org creation and invites, role-based access control, client/project CRUD, milestones, and assignee-scoped tasks, with Clerk-based auth.

Stack: Next.js, NestJS, Prisma, PostgreSQL, Clerk, TypeScript

Live: ledger-frontend-woad.vercel.app

Sawerni — *Algeria's First Photographer Marketplace*

Marketplace connecting verified photographers with clients — portfolio showcases, booking management, and a secure payment flow — as sole full-stack developer and system architect.

Stack: Next.js, Supabase, TypeScript, Framer Motion

Live: sawerni.vercel.app

Forge Kit — *Open-Source Developer Toolkit*

Free, open-source workspace bundling generators, converters, formatters, and dev utilities behind one keyboard-friendly interface.

Stack: React 19, TypeScript

Live: v1-forge-staging.vercel.app

DentalDZ & BZ Boutique — *E-Commerce with Custom CMS*

Full storefronts for dental-equipment and boutique retail clients, each backed by a custom-built CMS for catalog and order management.

Stack: React, Supabase

Live: dentaldz.com

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, PHP, SQL, Bash
Frontend	React, Next.js, Redux, Tailwind CSS, Framer Motion, GSAP, Alpine.js
Backend & ORM	Laravel, NestJS, Express.js, Prisma ORM
Databases	PostgreSQL, MongoDB, Redis, SQL Server, Supabase
DevOps & Infra	Docker, Kubernetes, Linux, Git, GitHub Actions, Nginx
Security & Network	CCNA-level networking, Wireshark, Nmap, Burp Suite, Metasploit
Professional	Project Leadership, Client Communication, Technical Documentation, Cross-functional Collaboration

EDUCATION & CERTIFICATIONS

BTS Degree in Web Development September 2022 – April 2025

INFSP AIG Khalil Zyat, Blida, Algeria — senior capstone: a Healthcare Management System digitizing patient records, appointments, and admin workflows for clinic staff.

Baccalaureate in Management and Economy July 2020

Blida, Algeria

Cisco Certified Network Associate (CCNA) Cisco Systems, 2025

Network fundamentals, IP connectivity & services, security fundamentals, and automation.

Docker Certified Associate Docker Inc., 2023

Containerization, image creation, orchestration, and deployment of containerized applications.
